

door smart wa custom range infill panels

Door Smart WA specialises in the highest quality custom made infill panels. Predominantly working with aluminium and when necessary steel, we work closely with the customer to build panels to meet their exact needs. We also supply the full range of Knotwood product, to get that timber look with zero maintenance.

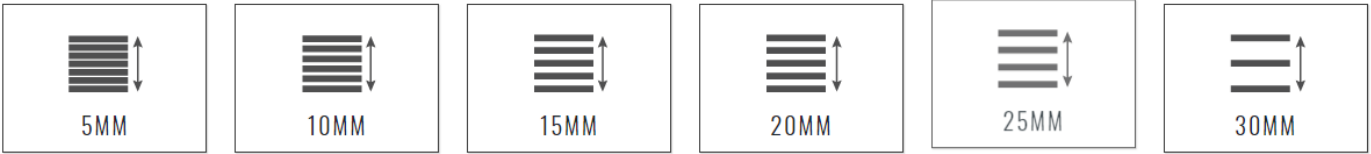

Door Smart WA's infill fencing & screening products provide the latest in low maintenance, architectural style. Our powder coated slat fencing and screening options will not rust, warp or require repainting & offer a cost-effective alternative to high maintenance timber batten screens.

From our initial consultation with you on site, Door Smart WA strive to provide you with exactly what you are looking for with your infill panels. Be it a functional, privacy screen that you are after or an aesthetically pleasing approach to you home, we are there to help.

The sky's the limit when it comes to design, call us now to discuss your needs!

CHOICE OF POWDERCOATED COLOURS
Door Smart WA gates and infills can be powder coated to any colour in the Interpon or Colorbond Powder Coating Range. Please contact our office for a full colour chart.

COST OF GATES, INFILLS AND GATE AUTOMATION
There are many factors that affect the overall price of the project, including size of the job, number of gates, size of panels used, configuration of gates, site access, change in levels or sloping ground etc. Door Smart WA will provide you with an obligation-free quote, configured to your specific job, after a site visit to confirm your needs.

HINGES & LATCHES
Door Smart WA have available a large range of gate hinge and gate latch options to suit any budget and security requirement. Hinges can be self closing if required, and we can cater to large gates, with hinges to suit gates up to 750kg.

WARRANTY
We take pride in producing gates and infill panels to the highest possible standard. All Door Smart WA gates and infill panels are produced in our Vasse factory using nothing but quality products. We are pleased to offer a 3 year structural warranty on all of our custom made products. This warranty covers the structural integrity of your complete fence, gate, screen or balustrade and is your guarantee that our products will remain standing for years to come.

sliding, swing & pedestrian gates

Door Smart WA sliding and swing gates are made to order to suit your home or commercial project. The design team at Door Smart WA is here to tailor gates to suit your needs.

Gates are built on-site at our Vasse factory, using only quality materials, to ensure longevity and satisfaction in your gate purchase. Standard designs utilise 35, 60 or 100mm slats but don't hesitate to discuss your design ideas should you have something else in mind, design your gates to suit your taste, your home and your budget.

Predominantly working with aluminium and when necessary steel, we work closely with the customer to build gates to meet their exact needs. We also supply the full range of Knotwood product, to get that timber look with zero maintenance. Where requested Door Smart WA gates are powder coated using Interpon and Color Bond Powder Coating for superior strength and corrosion resistance.

Sliding Gates are typically fabricated using 50x50x3mm frames and 100x50x3mm bottom rail, with a design pattern to be specified. Sliding gates can be built up to 2m high and 8m long, and require a 200mm wide x 350 deep concrete footing for full length of gate. All concreting is done in-house to ensure best price and highest quality.

Swing gates, can be either single or double leaf, and up to 2m high and 6m wide. We use the highest quality fully adjustable hinges, should the gates require realignment

Gate Posts are required on either side of the gate and we can assist in the selection of appropriate post size and material, along with gate hardware to suit the size and weight of the gates.

Matching a pedestrian gate to your new entry gate and Door Smart WA garage door will finish off the ultimate look at your place.

As with our sliding and swing gates, pedestrian gates can be manufactured to your specific design or you can choose from any of our sample styles.

gate automation

What could possibly compliment your new gate more than an automatic opener, after all, who wants to be getting out in the rain to open the gate?

Door Smart WA supply only the most state of the art motors with our focus on build quality, ease of install, and gate motor suitability to your specific needs. We have utilize of range of entry gate motors and gate automation products to suit most residential and commercial scenarios.

Gate automation is available on our full range of Door Smart WA sliding gates, and swing gates. If you don't have available power, no problem, we offer a full range of solar panel options.

At Door Smart WA we recommend all our automated gates to be serviced every 1-2years to ensure longevity and optimal operation. Speak to our team about scheduling an automatic reminder when your gate is due for servicing.

Manufacturer's we recommend include; ATA, Sommer, Centsys, and FAAC
